

NepalMonitor.org is a system designed to alert your local organization to human rights and security incidents happening in your area, as well as allow you to easily share incidents you see with local, national, and international organizations. This should help your organization to better respond to what happens around you, and keep yourself safe.

NepalMonitor.org maps reports from media, collected by large reputable organizations, or sent directly by individuals. Actionable reports are referred to organizations in our network. You can see these reports or send in your own in multiple ways, all you need is a mobile phone.

## NEPALMONITOR.ORG

NepalMonitor.org also conducts trainings on basic security measures for Human Rights Defenders in the field and on ICT security.

**WEB**  
NepalMonitor.org

You can see all the reports happening around you on our interactive searchable web-map at NepalMonitor.org. There, you can also find more information about us, subscribe to alerts of incidents in your area, or report an incident using our online form.

**EMAIL**  
Alert@NepalMonitor.org

### Subscribe:

Send us an e-mail that includes a district, city, or VDC name and we'll send you human rights and security reports from 50 KM around that location.

### Report:

Send us a report with as much detail as possible, including the date, the VDC or village or city name, and we'll put it online where the world can see it, and send it back to organizations in your community. We will only include your name or organization if you ask us.

### ANONYMITY

We will only publish your name if you specifically tell us to do so, but you don't have to tell it to us either.

### VERIFICATION

We strive to verify reports as much as possible, but will only mark a report "verified" if it has been checked by us or a trusted organization.

**SMS**  
9808975502

### Subscribe:

Text us "sub" + your name, organization, and VDC or village to receive short reports from your area on your mobile.

### Report:

Text us as much information as you can fit in a text message, and we'll call you if we need to know more before putting it online and sending it back out via e-mail and sms.

### SECURITY

We strive to assess any effects of publishing direct reports sent to us. If we think your report is likely to cause harm to you, or your community, we may not be able to make it public. If you face obstacles or risks in your work for human rights, let us know! We have years of experience in working for the protection of human rights defenders.
